

CORONA SOLUTION WITH ADDED VALUE: SAFE SERVICE, HAPPY GUESTS.

The collection of guest data has become mandatory, from artisan cafés to mountain inns. CHECK-ME allows for the easy and seamless monitoring of COVID-19-related seating restrictions — while ensuring 100% data quality. Businesses no longer have to concern themselves with administering restrictions and can easily verify reservation codes, guests get to enjoy added comfort and safety

The changing guidelines to stop the spread of the coronavirus have led to capacity restrictions and revenue losses in the gastronomy industry. Eventually, these restrictions will also lead to seating shortages. For businesses, it is therefore important to comply with regulations even when facing a large influx of guests. With CHECK-ME, this is made easy.

SECURE BOOKING. SATISFIED GUESTS.

Ordinance: Guests can make a reservation via QR code online, in front of the establishment, at the reception, in their room or at the table, contactless and in 5 easy steps. They select their desired time slot and number of guests and receive their ticket code via SMS — and can then share it with the other guests. Contact details are stored on the device for future reservations. This is the functionality provided by most vendors.

ADVANTAGES WITH CHECK-ME

- Easy monitoring of seating restrictions
- Zero administrative hassle
- Contact-free process
- High customer convenience
- No-show fee (optional)
- Sale of additional products & services possible at any time

Bonus (optional): With just four additional bits of information, we can provide significant advantages for providers, guests and the authorities:

- Number of seats indoor/outdoor
- Desired time slot
- Consumption deposit per seat (easily billable)
- Account number for payment of minimum spend

CHECK-ME makes it easy for restaurant owners:

1. Monitoring of seating capacity without operative overhead
2. Protection against no-shows through reservation deposit
3. Easy administration and billing

If guests don't show, then the consumption deposit is automatically transferred to the business. Payment processing is handled by CHECK-ME.

FLEXIBLE PAYMENT BY

Future: Based on the collected data, restaurant owners can be integrated into the direct tourism sales service provided by SYSTEM4C/GEIOS without any additional overhead.

In case you have already opted for a different solution but would still like to take advantage of the added value provided by our service, then we will be happy to assist you with the transition.
